

RODEA THE SKY SOLDIER COMING TO THE WEST FOR NINTENDO WII U™ AND 3DS™!

San Francisco, Calif. (February 19, 2015) – NIS America is extremely excited to announce that **Rodea the Sky Soldier** is coming to North America and Europe this fall for Nintendo Wii U™ and Nintendo 3DS™! The game will also be available as a digital download on the Nintendo eShop. The brainchild of Yuji Naka and Zin Hasegawa, *Rodea the Sky Soldier* brings speed and adventure together in this new journey through the sky.

About the game:

1,000 years ago, Emperor Geardo of the Naga Empire sent an army of machine soldiers to invade the sky kingdom of Garuda. Thanks to the efforts of Princess Cecilia and Rodea, a machine soldier who promised to protect Garuda, Emperor Geardo's assault was thwarted.

In present day, a spirited inventor named Ion discovers an abandoned robot that has fallen into disrepair in the heart of a scorching desert. Upon completing her repairs, the robot stirs to life and reveals itself to be none other than Rodea. Stunned to find himself in the future, Rodea learns that the Naga Empire is no more and that Garuda has known peace for 1,000 years.

But this peace was not meant to last, for the forces of Naga have returned to wage war against Garuda. Remembering the promise he made 1,000 years ago, Rodea takes to the skies to defend Garuda from the Naga Empire once again.

Key Features:

Touch the Sky – Complete each mission by traversing the aerial kingdom of Garuda while solving puzzles and demolishing enemies! Upgrade your flight capabilities and take full control of the air to discover secrets of the past and hints of the future.
