

## THE FIREFLY DIARY COMING TO NORTH AMERICA AND EUROPE THIS FALL!

Anime Expo, CA (July 3, 2014) – NIS America is excited to announce that the moody puzzle action game, *htoL#NiQ: The Firefly Diary*, will be available digitally this fall in both North America and Europe as a PlayStation®Vita exclusive! In this atmospheric title, you'll use the Vita's touchscreen and rear touch pad to navigate a young girl through dangerous ruins. Two fairies – one operating in light, and the other in shadow – must work in tandem to uncover this girl's memories and save her from the darkest of fates.

### About the game:

In the depths of a labyrinthine ruin, a young girl named Mion rises from a deep sleep. Lost, alone, and with no memory of how she got here or where her parents are, she is greeted by two fireflies—one composed entirely of light, and another who lurks among the shadows. By shifting between a world of light and a world of shadows, these two fireflies must work together to recover Mion's memories and lead her out of the ruins, where voracious shadow beasts, ancient machines, and treacherous traps lie in wait to bar her path. But what secrets do Mion's lost memories contain? What is the connection between her, the ruins, and the fireflies lighting her escape? The answers may reveal a deeper darkness—one that must be faced from within...
